

AS 9100 Class Offerings

The following classes are offered in support of a AS 9100 Rev. C transition from ISO 9001:2008

- 1. Management Overview of AS 9100 Rev. C – 2 hours**
 - a. Course designed for members of management that will need to make decisions on AS 9100. A review of history of the standard, expectations of an AS 9100 qualified company, management's responsibilities in an AS 9100 environment and key implementation hurdles. Class is geared for members of the management team.

- 2. Implementation Workshop – 8 hours**
 - a. Course designed for supervisors, managers and engineers that will be spear heading the AS 9100 effort. The session focuses on the various requirements of AS 9100 and defines system architecture expectations. This session may be used for individuals that are already ISO 9001 Certified or for an organization pursuing AS 9100 as their first certification.

- 3. Auditor Transition Course (for auditors already trained to ISO 9001) – 8 hours**
 - a. Session designed for qualified ISO 9001:2008 auditors. Focus is solely on differences between ISO 9001 and AS 9100. Auditors receive a proficiency exam at the conclusion of training.

- 4. Auditor training – 24 hours**
 - a. For new auditors, this session is an intense three-day course that provides an in-depth knowledge of the AS 9100 Standard. Basic introduction to AS 9100 tools, as well as basic auditing requirements.
